CARNEGIE'S COMMENT.

The Noted Millionaire's Views on Wealth and the Vicissitudes of Life.

Wealth, the goal for which one half of the world is striving and which the other half finds convenient as the means to an end, has been won by Andrew Carnegie, the retired Scotch steel king. He spends his time now in distributing what he was once busy in accumulating. He began life as a "bobbin boy" in a cotton factory where he earned $1.20 a week. His fortune now, at sixty-two years of age, is calculated at $100,000,000 or an income of $5,000,000.

In an interview with a Globe-Democrat correspondent he states some facts which made him wealthy and wise, and which he considers helpful to all young persons starting on a business career.

Poverty in youth he considers a positive advantage to a man who aspires to be rich. He must feel that it is sink or swim with him and if he has the support of others dependent upon him, all the better. It takes responsibility to bring out the best in any man or boy.

Next he must have ambition. He must not use up-to-date the word fail. The secret of success lies chiefly in the determination to succeed and the resolve that every impulse, every knock down he receives in the ball, will only nerve him the more.

Then he should make his employer's interest his own. He should take a personal pride in the concern with which he is connected and expend all his efforts and energies as if he really owned the attention of his employers, and the rest is easy.

The greatest secret of business success is the co-operation of employer and employes. Every should work together like a band of brothers—with the same end in view.

When the ambitious private in the great army of industry has reached the rank of captain, he should have developed a thorough knowledge of human nature, a genius for organizing and the capacity of inspiring his subordinates. With these quantities all combined you have as extraordinary character. The manager of millions cannot be a specialist. He must be an all-around man. His judgment needs to be sure upon a wide range of subjects.

But how to get all this? When a man has been every enemy to the one end—that of legitimately making millions and succeeded—what then?

Mr. Carnegie answers this question cheerfully as he does his own life.

"If he is wise, he will try to interest himself in public duties. This of course embraces good work in his immediate neighborhood. When he places his experience and superior ability at the disposal of the fellow men, he serves himself at the same time."

The Wheat of the World.

Broomhall's estimate of the world's wheat crop is 2,490,000,000 bushels, a decline of 390,000,000 bushels as compared with the yield of last year. Other European experts make the decrease as against last year's crop from 281,000,000 bushels to 377,000,000. It may be taken for granted that the yield this year will be below two and a half billions of bushels, or, say, 350 000,000 bushels below 1898 and 225,000,000 bushels below 1897. The falling off in the Northwest is about 170,000,000 bushels as compared with 1898, and the crop this year is about equivalent to that of 1897.

Smallest Republic.

The smallest republic in the world is that of Tavolara, an island about five miles long, with an area of about a little more than half a mile, situated about a dozen miles to the northeast of Sardinia. The total population of the whole republic does not exceed 60, but they elect a President every six years and a Council of six members, all of whom serve the State without pay. The women of island go to the polls and vote with the men, and ever since it became a republic, in 1836, public business has been transacted without turmoil; the elections taking place without any high party feeling or undue excitement.

Twelve years ago its independence was recognized by Italy, and it is to be presumed, other powers would have recognized it also if they had known of its existence. The inhabitants live principally by fishing and raising fruits and vegetables. They fear no sudden evasion, for they dispense with and armyand navy, and presumably, in case of need, would rely upon the entire population to uphold the freedom of the country.

Mrs. Pinkham's Medicine Made a New Woman of Mrs. Kuhn,

[LETTER TO MRS. PINKHAM NO. 64,021]

"DEAR MRS. PINKHAM—I think it is my duty to write to you expressing my sincere gratitude for the wonderful relief I have experienced by the use of Lydia E. Pinkham's Vegetable Compound. I tried different doctors, also different kinds of medicine. I would feel better at times, then would be as bad as ever.

"For eight years I was a great sufferer. I had falling of the womb and was in much misery at my monthly periods I could not work but a little before I would have to tie down. Your medicine has made a new woman of me. I can now work all day and not get tired. I thank you for what you have done for me. I shall always praise your medicine to suffering women."—MRS. E. E. KUHN, GERMANO, OHIO.

"I have taken eight bottles of Lydia E. Pinkham's Vegetable Compound and used two packages of your Sanative Wash, also some of the Liver Pills, and I can say that your remedies will do all that you claim for them. Before taking your remedies I was very bad with womb trouble, was nervous, had no ambition, could not sleep, and my food seemed to do me no good. Now I am well, and your medicine has cured me. I will gladly recommend your medicine to every one wherever I go."—MRS. M. L. SHEARS, GUM MARSH, MICH.

Farmers' Institutes.

Hon. Inoss Moore, commissioner of agriculture is pushing the preparations for the farmers' institutes to be held during the months of November and December. The plans pursued this year will be the same as followed in the state of Indiana. They will be divided into sections, placing 10 or 12 counties to a section. The sum of $35 will be paid to each county to cover the expense of holding an institute in each county of the section. It is not expected that the entire State can be covered, but a number of sections are being organized and efforts are being made to attract the attention of the employers, and the rest is easy.

In all stages of Nasal Catarrh there should be cleanliness. As experience proves, Ely's Cream Balm is a cleanser, soother and healer of the diseased membrane. It is not drying nor irritating, and does not produce sneezing. Price 50 cents at druggist or it will be mailed by Ely Brothers, 56 Warren Street, New York. Those being placed into the eustrils spreads over the membrane and relief is immediate. It is an agreeable cure.

The sections comprising the counties of Henderson, Daviess, McLean, Ohio, Grayson, Hardin, Meade, Breckinridge and Hancock, are being rapidly worked up under the leadership of Dr. P. A. Forte, of Irvington, and Mr. John D. Babbage, of Cloverport, and the prospects are bright for successful meetings in each of these counties. The plan, briefly stated, is to select an executive committee, composed of a member from each county in the section, which shall meet at once and and decide what subjects it would be most beneficial to have discussed, and arrange for speakers to discuss these subjects. It will be the policy, so far as possible, to employ local talent, but when found necessary, speakers will be engaged from other States. As soon as the committees are organized by the election of a chairman, secretary and treasurer, the sum due the section will be turned over to the committee, to be expended by proper voucher showing for what the money was expended.

Thoughts of a Dying Man.

For many weeks I have been confined at home, from which it is probable I shall never leave as a living man, judging from the conclusions of physicians, who have considered my case.

The thoughts upon immortality, by the same men when in normal health or at the eve of dissolution, I have experienced to be entirely dissimilar. In the first condition he speculates, analyzes, criticises or rebels. In the second he is content to leave the subject to the Supreme Originator and approach the end without dissent and in a humble spirit. His belief may be the result of instinct, education or reason. It matters little at that stage.

The general opinion concedes a Universal Power of prodigal benignity. That same view enforced from me. "Perfect love casteth out fear." The Power Supard in beneficence as manifested in His works, loves us and should dissipate our fears. If we reciprocate that love by obedience to common sense dictates and in kindliness toward our fellows, we worship in act, if not in words, and, with consciousness of duty performed, our fears should be dismissed.

The daily habit throughout life of the contemplation of one's own death, must have a salutary effect upon the moral actions of individuals, and as the great change appears, it can be entertained as an equal and tolerable. If not an entirely welcome visitor. The universal harmony which prevails in the material world seems but a glimpse, yet a guarantee of the celestial group of unified and spread by the Ever Present. This faith should suffice for many, so for me, and is my a t tude toward my approaching end.

For the rest to mourn me,
For the hidden truth to see,
I am waiting
For sky of silver to light,
For realm that has no night
For the source of Nature's light,
I am waiting.

For the Voice to say to me,
"I have seen and strengthened thee,"
I am waiting.

Thou hast well the victory won,
And to thee I say, now come;
I am waiting."

Pa Takes the Hired Girl's Place

[Georgie in the Chicago Times-Herald.]

Our Hired Girl came to maw the Other day and Saye her sister is sick so she wanted to Ge and see Her. Maw told her she Cud. The next day a man come for her trunk. Somebuddy areund the corner Sed they would pay her fifty Sents a weak more and not ast no questions when She Didn't git home till after Breckfust the next morning.

It made maw nearly Sick and Paw told Her to take little Albert and go to See Ant Amie for a few weeks.

"But what'll you Do when I'm gone?" maw says.

"You never mind," paw told Her. 'Me and Georgie and the papp will git along all rite, and I'll save money. I no more about cookin than I Ever let on B. fore. Save do you no what I does when? It was when I belonged to the melishy. We was in Camp and the Cook got sick and they putt me in, and they all Sed they never Had sich cookin Before in their lifes. I'll also thank Uorie by poi that we kin git along without Them if we want to."

So the next Day maw and little Albert Started and that nite when paw Come Home he told me:

"Georgie, you are now again to Have the Finest meal you ever et in your life. You watch me, Beces Some Day it mite come in handy for yon to no a little about such things. Of corse I Don't purpose that I no all the little Dootails about it, But I'll Bet if I Had enuf parskips I could go rite Down to Sam eluh or hotel and Git a good salory et it."

So he turned on the Gass and went to Get a match, but the Box was empty.

"That's like a Fool Wumman all over," paw says: "They Don't never Have no seium about Things. If it was a man runnin This here end of the Establishment they would always Have things where they Belong. I wonder ware the dickens that gurl kep the matches eny way."

So he Hunted all thru the Ice ebist and I clum up on a Pantry Shelf to See if they was there and thare was a Plate fell Down and Broke in about 90 peaces and paw come a runnin and says:

"You're the Blamed awkerdest Boy I ever seen yit. Why Didn't you notes what you was Doin, and push that plate Back before you opened the Door? But that's the way you always Do. I don't never look ahed. Your's jist like your maw. I Dunno what'll bepen to you when you git so you'll Haft to take care of yourself. Take a Lesson from me and always think what's going to Happen Before you Do a Thing."

After while we Found the matches on a jar on Top of the place where maw keeps the gelly and Things and paw Took the Box and went Back to the Kitchen, Lighed one on His Heel as He went along, So He would save time.

I gess he was about three feat from the Gas stove where the Gas was Turned on all the Time when the excitement Hapened.

They was a sniffand a Flash whit went party near all over the hole piece and for about a minit the air was Full of Fire and tin kittles and matches and paw and the papp.

I gess he burned three Back Summersets Before He hit with His head Down in the Seller war and His feat Sticken up in the kiteben. Mebby it mite of Been more Then that, Beces I didn't Have Ben to Count.

The papp Rin out thru the Back way, not Trying to Keep it a Secret, and party Soon paw Called me kind of Soft and Geutul. I gess He thot I was Ded. Well, I got the fanest a Cool and Set on the Step and felt His feis and Broke off a Lot of Whiskers what was Signed and Looked at me kind of Pleedin and says:

"Am I Disfigered enuy whairs?"

"No, paw," I says, "you're Almost as Good as new. But I gess the Box of matches is rooened."

Then he put up and we tramped on the matches that was burnen and putty Soon paw says:

"Where's that peace of stalk I had?"

After while we found it in a Corner where the papp was Eaten it when the trubble happened.

The way paw talked I gess he was party disengaged. So we got our Supper at the Restaurent.

Robbing Households.

[St. Louis Republic.]

Mr. Hanna has assured us that there are no trusts; that there are only a number of "corporations which have come listed their capital and their produce we energies for the purpose of benefiting consumers by cheapening price."

Mr. Hanna said what he knew was bitterly untrue. Women who have to do the buying for the family and men who have to pay the bills, can readily recognize the accuracy of the figures recently tabulated which show the increase in prices made by trusts within the past year on articles of household necessity.

It is the citizen's pocketbook which proves that the trusts have not only set out to practice cruel extortion, but that their exactions bear most heavily upon the necessities of life and dip deepest into the resources of the persons least able to support the demands of monopoly. Trust avarice is felt keenly in every household where the income becomes the more cruel are the stand-and deliver methods.

A Burning Issue Coldly Received.

[St. Louis Post-Dispatch.]

Plutalitree and majorities in elections mean nothing unless studied in connection with total votes and loss of confidence. In the light of that criterion, let us examine the results of the elections on the 7th inst.

In Massachusetts the total vote was 272,710, or 112,000 less than in 1896. Of these 168,000 were Republicans, the smallest number since 1891. The Democrats polled 103,000, or 2,000 less than Bryan's vote in 1896.

In Ohio the Republicans polled 430,000 votes, or 85,000 less than in 1896. The Democrats got 380,000, or 90,000 less than in 1896. Jones got 110,000, drawn largely from labor centers, where the Republicans have been strong on account of the protection plank. The Hanna-McKinley minority is at least 50,000.

In Nebraska the Republicans are 15,000 votes behind on a total vote of 17,000 less than in 1896, and are on the smallest minority ever known. In Iowa both parties fall to the lowest vote in four years.

Taking the States of Massachusetts, Kentucky, Ohio, Iowa and Nebraska, we find that the total Republican vote was in 1896, 1,363,963; in 1898, 1,097,643; in 1899, 1,075,000.

The above does not look like a growing sentiment in favor of the Administration policy. The "burning" issue was imperialism, but it was coldly received by the masses of Republicans. In spite of the President's "progress" and his bedecked speeches, the people were indifferent to his brand of patriotism.

On the other hand, there is a decline in the Democratic vote which offers no decisive encouragement. Popular indifference or hostility to the Administration's imperial policy, why should the Democratic vote decrease? The answer to the question is important to the people's welfare.

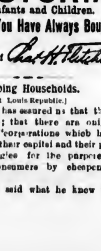
DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.



It is the great physician remedy of the nineteenth century, discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in curing backache, kidney, bladder, uric acid troubles and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work, in private practice, among the helpless too poor to purchase relief and has proved so successful in every case that a special arrangement has been made by which all readers of this paper who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The regular fifty cent and dollar sizes are sold by all good druggists.

Home of Swamp-Root.

Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

The Beer's Oath.

This peculiar solemn pledge was subscribed to at a meeting held by them on April 12, 1879, at Wonderfeteln, in the Vaterland, and is given as reproduced in the Naval Witness:

"In the presence of almighty God, the Searcher of Hearts, and praying for His gracious assistance and mercy, we, members of the 8-inch Artillery Republic, have lovingly agreed for us and our children to unite in a wholly covenant, which we confirm with a solemn oath. It is now forty years ago since left fatherland, and have striven to become a free and independent people. These forty years were forty years of sorrow and suffering. We have tended Nniel, the Orange Free State, and the South African Republic (Transvaal), and three times has the English Government tramuled on our liberty, and our flag, baptized with the blood and tears of our fathers, has been pulled down. As by a thief in the night, has our free Republic been stolen from us. We cannot suffer this; and we may not. It is true will of God that the unity of our fathers and our love to our children should oblige us to deliver onto our children nublemished, the heritage of our fathers. It is for this reason that we here unite and give each other the hand as men an brethren, solemnly pledging to be faithful to one country and people, and, looking unto God, to work together unto death for the restoration of the liberty of our Republin. So truly help us, God Almighty."

Age of the Earth.

Prof. B. A. Fessenden, of Allegheny, addressing the American Association for the Advancement of Science, concludes that the earth must be at least 500,000,000 years old.

He says that geologists need to think that there was unlimited time for evolution, but Lord Kelvin showed that the time was unlimited, and must be something like 200,000,000 years. Lately he has brought the time down since life was first possible on this planet to less than 50,000,000 years.

Lord Kelvin's estimates are based upon certain assumptions, the most important being that the radiation co-efficient from the earth has remained constant. If the said ation co-efficient was several times larger than at present, the age of the earth would have to be increased very considerably.

A note on some of all sources of possible error has led him to the conclusion that we are justified in saying the age of the earth since life was possible on it is not less than 500,000,000 years, perhaps less, and consequently Lord Kelvin is not justified in his statement that life could not have been originated on this earth.

Chinese History.

Authentic history and biography in China embraces a period from the 1221 of our era back to the remote period of 2,697 years before Christ. The Residence of China embraces a succession or uninterrupted series of more than 2,400 years. The full and continuous history of the empire was compiled in the Second Century of our era.

The great literature of Peking contain volumes of books numbered by the hundreds of thousands. In the archives of the government are still to be found the original records of the past, written with great economy, together with works on astronomy which show a fair knowledge of that interesting science. Biography, very succinctly written, of the Emperors of the most ancient dynasties, still exist, and written works of learned men are as voluminous as those of European nations.

When Nineveh and Babylon were in the splendor of their might, men in China were printing critiques, making geologues, and giving names to the stars. Nineveh and Babylon were mere mounds of earth and rubbish when China was great, and to this date the civilization and life of the empire is the wonder of the world.

Fires 3,100 Bullets a Minute.

The new field gun, which fires a shrapnel shell, and which in its perfected state is now being used for the first time by the British in South Africa, is perhaps the most deadly weapon of modern warfare. Each gun can fire twelve simed shots a minute and each shot carries 260 bullets, weighing forty-two to the pound. The deadly shrapnel shell consists of a piece of steel inbing, filled with small balls. At the head of the shell is a time fuse, which can be adjusted to suit the range at which the gun is to be fired. This fuse ignites the small charge of powder which lies in front of the bullets. The firing of the gun ignites the fuse, which burns for the time for which it has been set. It then fires the powder, which bursts the shell and sends the 260 bullets flying among the enemy. It is said that these bullets scatter like shot from a fowling piece and cover a space of twenty-four square yards with a rain of lead. The guns have a killing range of 3,500 yards.

Weeds Good to Eat.

[Pittsburg Dispatch.]

The dandelion isn't the only weed eaten by people who know what's good to eat. Take wild cabbage, the plague of the farmer. It makes one of the finest salads served, piquant, tender and wholesome. Charlock, or wild mustard, is another bane of the farmer. He doesn't know that as a pot herb it can give a song a delightful flavor. Lamb's dock-weeds—how annoying the whole family are! Yet the broad-leaf variety sea the only leaf are used all over Europe as table vegetables.

There's "muskeweed"—commonest of them all. In France it is cultivated. It takes its place with sage thyme, parsley and bay leaves as a flavoring for soup.

Everybody in America hates a nettle and can't see what use it is. In Scotland, and Germany, tender young nettle leaves are used as greens. The Germans boil it with other vegetables to give them a pungent flavor. Pepline is another weed that can be treated the same way.

Most people think milkweed poisonous. It is a medicinal vegetable with a delightful flavor all its own. The young leaves, when they are in just the right condition, are a cross between spinach and asparagus, and in a salad are delicious.

Sorrel, lettuce and chervil are looked on as field pests by bloody-tins out of every 100 farmers. The bundredth one picks the choicest leaves from these weeds and sends them to market, where they find a ready sale for salads to be eaten with game and for flavoring herbs—for herbs they are and not weeds.

People are easily frightened when they think that something is the matter with heart or lungs. Off they rush to the physician's office and have themselves examined, no matter how big the fee may be. They do not realize that various forms of heart trouble may be greatly sympathetic, and that the organ really breaking down is the stomach. Indigestion is usually the last cure of man or woman.

When the digestion is impaired, when the blood is poor, when a weakness of the lungs is feared, begin to worry of mind, when consumption is invited by the condition of the lungs or blood, then there is no real scare. What is to be done to purify and vitalize the blood? What will give that backing cough and strengthen the weak lungs?

Dr. Pierce's Golden Medical Discovery cures ninety-eight per cent. of such cases. It strengthens weak lungs and cures obstinate lingering cough, bronchitis, bleeding of the lungs and kindred ailments, which, if neglected or unskillfully treated, lead up to consumption.

My wife had hemorrhage of the lungs," writes W. A. Sanders, Esq., of Hern, Mason Co., W. Va., "she had ten hemorrhages, and the people all around here said she would never be well again. I was broke. I sent for Dr. Pierce's Golden Medical Discovery, and soon began to see strength and flesh. After taking six bottles she was entirely well. If any one doubts the merits of this medicine they may enclose a self-addressed envelope with stamp, and I will answer."

Send Dr. R. V. Pierce, Buffalo, N. Y., 21 one-cent stamps, to cover cost of mailing only, and he will send you a free copy of his 1000 page illustrated Common Sense Medical Adviser, the best medical work published. Cloth bound 31 stamps.

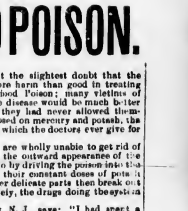
HOME CURE FOR BLOOD POISON.

Beware of the Doctors' Patchwork; You Can Cure Yourself at Home.

There is not the slightest doubt that the doctors do more than good in treating Contagious Blood Poison; many victims of this loathsome disease would be much better off today if they had never placed themselves to be dosed on mercury and potash, the only remedies which the doctors ever give for blood poison.

The doctors are wholly unable to get rid of this vile poison, and only attempt to heal up the sores and ulcers—the sores and eruptions. This they do by driving the poison into the system, and endeavor to keep it shut in with their constant doses of potash and mercury. The mouth and throat are first broken into sores, and the fight is continued indefinitely, the drugs doing always a more damage than the disease itself.

Mr. H. J. Myers, 100 Mulberry St., Newark, N. J., says: "I had spent a hundred dollars with the doctors, when I realized that they could do me no good. I had large sores all over my body, and these soon broke out into running sores, and I endured all the suffering which this vile disease produces. I decided to try S. S. S. as a last resort, and was soon greatly improved. I followed closely your 'Directions for Self-Treatment,' and the large splotches on my chest began to grow paler and smaller, and before long disappeared entirely. I was soon cured perfectly and my skin has been as clear as glass ever since. I cured myself at home, after the doctors had failed completely."



It is valuable time thrown away to expect the doctors to cure Contagious Blood Poison, for the disease is beyond their skill. Swifts Specific—

S. S. S. FOR THE BLOOD

—acts in an entirely different way from potash and mercury—it forces the poison out of the system and gets rid of it entirely. Hence it cures the disease, while other remedies only shut the poison in where it lurks forever, constantly undermining the constitution. WEDNESDAY, NOVEMBER 22.

THE leonid shooting stars were not visible to Kentuckians last week, as predicted. They perhaps heard of the political situation here, and didn't want to take any chances on being knocked out of their course.

IT seems that elections by injunction are to follow government by injunction in the Republican mode of settling matters to the satisfaction of the leaders of this party. Conscientious election officers are but helpless dummies in the presence of this legal outrage.

IF we must expand and take into ourselves new territory, under the plea of imperialism, why not annex Mexico? Why not send our army down there and whip the Mexicans into subjection? Geographically the country is right under our nose. Why not take it? There would be just as much reason and justice in a movement of this sort as there is in Mr. McKinley's war in the Philippines.

IT remained for a Republican Governor of Kentucky to fix a bayonet against his fellowman, and that without cause. Gov. Bradley's acts in calling out the militia in times and conditions of peace to intimidate and cower the people, is a disgrace to the fair name of Kentucky. It was never done until the Republicans came into power in Kentucky and will never be required under Democratic rule.

THERE is some agitation going on in the effete East as to whether it is healthful to eat a lunch at the noon hour. Some of the more stylish people who eat breakfast at 8 o'clock in the morning and dinner at 6 in the evening, consider it necessary. Out here in these parts, however, this question doesn't bother us. Just so we get three meals a day, you may call them what you wish. It's where they're to come from that causes the only agitation.

THE sudden death of Congressman Evan E. Settle at his home in Owenton, Ky., last Thursday was a shock to the whole State. He died of heart disease. He had been sick only a few days, and it is quite certain that his fatal illness was brought about by overwork during the State campaign. Mr. Settle was a statesman of the highest order of talent, and an orator of surpassing eloquence. He was serving his second term in Congress from the famous Ashland district. He did most effective work for the Democratic party during the recent campaign, and he held a position in the world's affairs for which it will be hard to find a successor of his kind.

WITH the completion of the count in Jefferson county, the official returns from the entire State give Mr. Taylor a plurality of all votes, contested and uncontested, of 2232. Taylor's plurality in Jefferson county is 3,401. Five of the ten precincts, which gave Mr. Goebel a total plurality of 350, were thrown out; the remaining five, with a Taylor plurality of forty-eight, were counted. This is the status of the vote as it is now figured out. The State commissioners will meet in a few days, canvass the vote and award the certificates of election. It cannot now be determined the exact vote upon which the commissioners will have to figure.

THE brave and heroic lives that are being sacrificed in the useless war in the Philippines, are monuments on the field of the nations' history to the political craftiness of a mercenary President. The widows and orphans and bereaved parents who are daily made to weep for the loss of a loved one, are another product of this unholy war. It is grand and glorious to die for one's country, in an effort to rescue it from impending danger or destruction, or the encroachments of a cruel tyranny. But to suffer privations and finally die for the sake of a simple political game or senseless policy, is awful. It is enough to stun the patriotism of the noblest American ever born.

COAL OIL has lately taken a jump of 5c on the gallon. Hardware and castings have gone away up in price. Many other of the necessaries and commodities of life have recently had a new and higher price placed upon them. But wages and financial incomes have not kept pace with these price-flights. And do you know what it means? Across the face of it is written "THE REIGN OF THE TRUSTS," and these little movements are but a tax put upon the people to pay for a political campaign next year in the interest of a party whose leaders get their largest donations from these powerful institutions of wealth. Do the American people relish this sort of thing? And will they continue to vote with a party whose policy insures a continuance of this quadrennial tax?

THE New York *Tribune*, one of the most stalwart of the administration organs, in a recent issue said:

> We see to-day the amazing and revolting spectacle of industrial corporations defying law violating order and practicing anarchism. In playing ducks and drakes with law and order, corporations are playing the game and into the hands of their worst enemies.

This strong language from one of the leading journals of the party which affords so much protection to the trusts, is significant to say the least. It is the reflection of a strong light from the inside of an organization whose management is just now in jeopardy of doubt as to whether it were more profitable to openly suffer and support the trusts for large money, as usual, or make a pretext of anti-trust sentiment to swindle the people out of their votes. The chances are, as a nickel is for a ginger cake, that the Republican party will in no wise forsake the trusts.

DID the reader ever stop to think what the wars of the 'world cost? Did he ever see an estimate of what war costs the United States? At the present time more than eighty per cent. of the cost of running this Government is caured by wars—past, present and prospective. The figures will bear out this statement. For the first two months of the present fiscal year the Government expended $102,969,080.33. Of this amount $21,066,489,81 wes for the support of the civil and miscellaneous establishment, and the rest was expended on account of militarism in one form or another. It will be seen by this that war is costing this Government four times as much as it costs to keep up the civil departments. Startling figures these, for a republic dedicated to peace. And still Mr. McKinley keeps adding millions to millions in his war expense by his unjust and uncalled-for war in the Philippines.

ONE of the boldest acts of election intimidation ever conceived was that practiced by the Republicans of Louisville last week, upheld by that political traitor, Judge Sterling B. Toney, of the law and equity division of the Jefferson Circuit Court. Upon him primarily rests the blame for the calling out of troops. This outrage, however, was not enough to satisfy this political purificationist, in his seeming efforts to count Mr. Taylor in. In a number of Louisville precincts the election officers were forced by order of Judge Toney to sign certificates which they declared to be false and fraudulent, and they did this only after being told that unless they complied with the command they would be sent to jail. Thus he forced the officers of election to certify to certain returns the Republican leaders demanded, and this after the officers had declared that they knew the returns to be false. And by this are we given a taste of not only government by injunction but elections by injunction also.

THE blighting and crushing effect of the big corporations and trusts of the country upon the efforts and products of labor has become of the first importance. In nothing does it assume such a grave aspect as in the relation of capital to labor, and in the chances afforded the genius of this country to enjoy a proper reward. An old adage has grown to be a plain truth which says that the inventor of a valuable patent is generally the one, among all concerned, who gets the least out of it. This aphorism has grown the more truthful from the presence of the trusts and corporations, which seize upon every valuable project and place it beyond the range of competition, and also deprive the originator of his worthy reward. An illustration of these remarks is found in the death a few days ago of Mr. Ottmar Mergenthaler, the inventor of the famous linotype, a machine for type-setting. Mr. Mergenthaler died poor, and among his last words was the remark: "Corporations are not organized to keep promises which they have made."

WHY IT WAS SO.

The large majority which was recorded against the Democratic party in this county at the recent election, was at first a matter of surprise and chagrin to all Democrats, but post-election developments have served to throw a great light on the subject. Reports from all the different precincts of Republican election work and a little study of conditions, are sufficient to confirm the most skeptical reasoner if he had any doubts as to the methods practiced to carry Ohio county for Taylor and the Republican ticket.

Republican boodle was used lavishly in this county and without stint. Be it said to our discredit, there is a large floating element here, and it was from this vote that the Republicans realized their greatest gains. The chairman of the Republican State Central Committee is a native of our county. By virtue of his high rank in the councils and manipulations of his party in the State, he no doubt had the first pull at the L. & N.'s barrel. Mr. Barnett was never known to be modest in his political demands or manner, and if the rim of the barral struck him in the arm-pit, of course it was but evidence of his well known characteristics. And then his next thoughts, of course, were of "the folks at home."

It is said that trusted lieutenants were dispatched to the remotest sections of the county with ample instructions and other stuff to bring out a heavy Republican vote at each precinct.

We do not credit the whole Republican majority to lavish use of boodle, but it cut a big figure in the result. Large numbers of Democrats stayed at home and did not vote all. We feel confident in saying, however, that not a Republican who could possibly be out, was absent from the polls or failed to vote. By which result is confirmed whet THE HERALD has repeatedly asseverated—that a Republican never refuses to vote his party's ticket, while some Democrats are ready to bolt or remain silent at the least provocation. In the presence of these conditions, the man who votes for pay, holds the balance of power.

The Republican victory in Ohio county was not a triumph of principles, but a simple mathematical result of boodle.

Solemn Warning From a Leading Republican Organ.

The Topeka Capital, the Republican organ of Kansas, caused consternation among the Republican bosses and politicans by a denunciation of trusts. The Capital printed five columns of interviews with the business men of Topeka, in which it showed that an advance of from 10 to 100 per cent. on every commodity used by the people has been made by the trade combinations and trusts. Business men declare they see no hope of lower prices on the staples, and they explain that the increase is wholly due to the big trusts and combinations among manufacturers.

Furniture dealers say prices have gone up 30 and 40 per cent. in two weeks. One of the heaviest dry goods dealers in Topeka said:

"I buy my goods from the trusts. They have me in their power. Were I to be interviewed and tell the truth about the increase in prices and the cause, I believe the trusts would make it impossible for me to buy goods. So don't use my name."

The Capital editorially warns the Republican party of the impending danger in its protection of trusts in the following:

"We are not alarmists, but we are impressed with the belief that the people of the United States are facing today a menace to the peace of the country as great and powerful as slavery was in 1861. In 1900 it will be a national issue. In that contest we believe the anti-Republican party will be on the side of the people and against the criminal trusts. The political party that stands as the protector and promoter of the allied moneyed interests, crushing out small competitors and increasing the cost of living for the purpose of maintaining as profitable billions of dollars worth of gambling trust stocks, ought to and will go down in ignominious defeat."

How The Public Is Deluded.

[Denver Post.]

When the purchaser of a French mirror pays an extravagant price for his purchase, he is told that it cannot possibly be sold for less because of the enormous import duty and lets it go at that, being satisfied that nearly one-half of what he had to pay for it goes into the national treasury. The import duty is 45 per cent ad valorem, exclusive of the frame, on which there is an additional duty. But it has been discovered that very little mirror glass is imported and what is sold as "French" is manufactured here. The amount of duty is added to the selling price, and instead of going into the national treasury, finds its way into the coffers of the plate glass trust. Instead of importing we are exporting and underselling the French manufacturer at his own door.

Could it be done? Easy enough. The profits on the home manufactured article sold to the home consumer are so enormous that in order to obtain a market for his products abroad, the American manufacturer can sell his goods there at cost, if necessary. The American people are now paying for the home manufactured article as much as for the imported, duty added, and as the Government receives no revenue from that source, the public is paying a war tax besides, to make up for the amount which goes to the protected industries instead of the national treasury as import duty.

ELECTIONS BY INJUNCTION.

Such are the Latest Tactics Employed by Republicans to Count in Taylor.

And so it seems that we are to have not only government by injunction but elections by injunction also, if Republican tactucts are permitted full sway. Officers are being compelled to sign false election returns, even after stating their belief that the figures are fraudulent. In Louisville last week the Republicans continued their work of controlling the result of the election in that city by the injunction process. In this outrageous act they were aided and abetted by Judge Sterling S. B. Toney, Judge of the law and equity division of the Jefferson Circuit Court.

The first injunction was secured by the Republicans last Tuesday, and two more were granted Thursday, one against the officers in the Twenty-ninth precinct of the Tenth ward, and the other against the officers of the Twentieth precinct of the Ninth ward.

Henry Harrison, a colored Republican officer in the Twenty-ninth precinct of the Tenth ward, was forced by court to appear yesterday and sign the irregular certificate, but before doing so he appeared before the Commissioners and made the following statement:

WAS FORCED TO SIGN.

Henry Harrison says he was the Sheriff at the Twenty-ninth precinct of the Tenth ward on November 7, 1899. He says there were no names on the ballots; the clerk did not sign his name on them. At the close of the polls the Brown men came. We had instructions to let in only two inspectors one for the Republican party and one for the Democratic party. We refused to count them. It was agreed that they might be returned without any count. He say she does not know how many votes there were. He says he does not know that the certificate he is now called upon to sign is correct, and he is unwilling to sign except by reason of the order of Judge Toney. He says that if he signs the certificate it will be because Judge Toney has threatened to imprison him if he does not, and that if he now signs it the signing is done under protest and in ignorance of its correctness, and is signed because he is informed he will be imprisoned if he does not do so, and he signs because the court says he must do so.

HENRY HARRISON.

COULDN'T EXERCISE HIS JUDGMENT.

Clemens Brecker's affidavit concerning his forced signature in the Seventh precinct of the First ward, last Tuesday, was as follows:

STATE OF KENTUCKY, }
JEFFERSON COUNTY, }

The affiant says that he was clerk of the Seventh precinct of the First ward on election day, November 7, 1899; that the paper produced and signed, or tally-sheet, was not made out by him and is not correct and shows upon its face that it is incorrect; that he is informed and believes that he appeared at the Clerk's office of the Jefferson County Court on Monday, November 13, 1899, in pursuance to an order from S. B. Toney, Judge, made upon the petition of Sidell vs. Walter Sinkhorn and others, a copy of which is hereto attached. That when he came to the Clerk's office and saw that the returns or tally-sheet had been tampered with and was incorrect, he could not in good conscience sign the same, because it was untrue, but that he thereupon went to the Judge of said court, to-wit, said S. B. Toney, and explained to him through his counsel that the paper was incorrect and was incorrect and that he would not certify to the truth if he signed it, yet nevertheless the Judge ordered him to sign forthwith or be would send him to jail. That thereupon he reported to the Clerk's office and one of the Republican officers filled out the return according to his own wish and affiant signed the same.

That before signing he gave notice publicly to Wm. P. Johnson, clerk, and to all present that he did the signing under protest and compulsion and in order to avoid going to jail and because of the threats of said S. B. Toney this day made, and also gave notice to the Clerk and to all other persons present that the tally-sheet had been changed and tampered with and was incorrect, being signed by him under compulsion as before set forth.

CLEMENS BRECKER.

Subscribed and sworn to before me by Clemens Brecker this 13th day of November, 1899. WM. P. JOHNSON, Clerk of Jefferson County Court of the State of Kentucky.

In response to an injunction suit filed by John Marshall, Judge Toney issued an order enjoining and restraining Robert C. Bogerth, James Hines, Judge; W. A. Edwards, clerk, and W. H. Miller, sheriff, of the Twentieth precinct, Ninth ward, from refusing to count and certify the votes cast in that precinct at the election. The final hearing of the injunction was set for November 17, and the bond was $500, which Mr. Marshal signed.

TALK OF IMPEACHMENT.

Mr. R Frank Peak, of Shelby county, who was one of the chief speakers for the Democratic State Ticket, says it has been arranged for him to commence impeachment proceedings against Judge Sterling B. Toney before the State Senate as soon as it convenes in January. The impeachment will be on the ground that Judge Toney usurped authority and prevented a fair election by having the militia called out on election day, resulting in the intimidation of thousands of voters.

The proceeding is for the House to indict and the Senate to try such cases. There are twelve Republicans and twenty-six Democrats in the new Senate.

Waiting Widows.

CHICAGO, November 19.—Messrs. Bates, Farnsworth and Monroe, known to fame through the charge that they were bigamists on a wholesale scale, are suddenly confronted with a rival, according to the police, in the person of John A. Smidt, who is accused of having eclipsed their marital efforts. Today Mrs. Mead, of 3122 Wabash avenue, and Mrs. Schuman, of 694 Sedgwick street, both widows, visited Lieutenant Peter Joyce at detective headquarters and demanded the arrest of Smidt.

According to their story, each unknown to the other had arranged to go to Salinas, Cal., yesterday with Smidt to become his bride. Mrs. Mead said she had given him $50 to purchase railroad tickets, and had intrusted her trunk, containing all her personal property, to an expressman whom he sent to her home for it. Arriving at the Rock Island passenger station, she was disappointed in not finding Smidt, but while awaiting his arrival, encountered Mrs. Schuman.

In the conversation that followed each told how she had been duped. Before they left the station they said they discovered that 12 other women, in all, were also waiting for Smidt. They expected to go to California as prospective brides, and in almost every case money had been advanced for transportation expenses, and the victims had turned over their trunks to an expressman sent by the bridegroom-to-be.

At yat the police have been unable to secure any trace of the trunks or any definite knowledge of the number of victims of the matrimonially inclined Californian. As a consequence it was impossible for Lieutenant Joyce to approximate the amount of money that was secured, but it is believed that it will reach a considerable sum when the complete list of victims is obtained, together with a report of the individual losses.

BOLD ELECTION SWINDLE.

Why Hopkins County Went for Taylor---Imported Voters from Indiana.

The Democrats of Hopkins county since the election have been actively engaged in clinching the facts in one of the boldest frauds perpetrated against the Democratic ticket. Hopkins is usually a strong Democratic county, but this year it gave Taylor a plurality of 220, greatly to the surprise of every one there.

Most of the fraud in the county was committed it is said in the two Earlington precincts. Earlington is the headquarters of the St. Bernard Coal Company, the President and Manager of which is J. B. Atkinson, a strong Republican partisan. It is also a strong L. and N. railroad town. The facts of the fraud are set forth in the following communication to the Courier-Journal:

[To the Editor of the Courier-Journal.]

EARLINGTON, KY., Nov. 17.—Pardon me for writing this communication, but judging from the returns from this place one would think there was not a democrat in a thousand miles of Earlington. But this is a wrong, and if the Courier-Journal will permit a Democrat to tell the true story about the two precincts here, which caused Hopkins county to go Republican, I will herewith give it to you. I live in Earlington, and have for many years. I am not working for the L. and N. Railroad nor the St. Bernard Coal Company. Neither have I ever worked for either of these corporations, or even asked for a situation of either. I am a Democrat, and believe in an honest ballot and want the man who is honestly elected to take his seat. But if there was as much dishonesty committed elsewhere as there was here by the Republicans and John Young Brown men, an honest man had as well quit voting.

At 2 o'clock Tuesday morning a special train came into Earlington from Evansville. On this train was a coach packed full of white and colored men, about a hundred in all. Several people heard of the train coming, and I, being one, laid for it, and saw with my own eyes the train. It did not pull into Earlington, but unloaded about a half mile north of town. All of these men voted, notwithstanding the Assessor's book showed no such men existing in the county, and the Assessor's book has not been made out quite three months. A barrester so far ahead of time as engineer voted who lives in Howell, Ind. An investigation has been made and it has been found that he is not only on the Assessor's book at Howell, Ind., but that his family resides there. The proper ones are making a thorough investigation of the gentleman with the hope that he may be able to reside in Eddyville in the future. So far only eight names of the Evansville voters have been found, but the names are being thoroughly searched for all over Indiana. These are facts.

It Burns Easily.

There is great difference in the way fuel is burned. Put a green stick in the stove and then a similar piece after they are dry and you can see the moisture leave the one and watch the fuel when you take into the body in the form of food. Of all known foods and oils, cod liver oil heads the list in the ease with which it is oxidized or burned up. In Scott's Emulsion you get this food free from disagreeable odor and taste. All delicate children should take it, for it gives them rich blood, strong muscles and keeps them plump and hearty.

Goebel's Machinery.

The Bowling Green Times tells the following story:

An old man with whiskers as long as they were gray, went into the implement house of Bearce & Stone yesterday and told Mr. Bearce he wanted to buy a McCormick machine for next year. Mr. Bearce, while showing him a catalogue and making him prices, asked him why he had determined to purchase a harvester so far ahead of time. The old man replied, "Well," was the reply, "I have hear'n Ind. An investigation has been made 'em say that this man Goebel is erbout to git a holt of all the machines, and I thought I'd buy before he put the price up."

The report in it before any explosion was made.

Any one who can give her any information on this line would confer a favor by calling on her and imparting same when she comes to Hartford.

A Tiger on Wheels.

One of the boldest games ever played in this vicinity was practiced on our streets last Monday afternoon. A small express wagon with a neat gray cover over it was noticed moving through our streets, but nobody paid much attention to it. Finally the vehicle stopped on the public street just above the post-office, and several men gathered around it. Then the driver commenced dispensing whisky right and left. The liquor was in bottles—pints and half pints. All who had the price and so desired, tonight freely and as much as they wanted. The driver and proprietor of this keen-sighted tiger moved on a short distance and stopped again, selling his liquor to all who came for it. He made several "st.nde" around town and dispensed a large quantity of redeye. He made no concealment of what he had to sell, but passed the unwrapped bottles out to his customers pretty much as a huckster would hand out a head of cabbage.

No attempt was made to arrest the fellow, although he stayed upon our streets quite awhile. His name is also well known to our people, and this is not his first visit to our community. He was here with his tiger on the day of the Taylor speaking and also on the day Mr. Goebel spoke here, but he was not to be found on either of those occasions as he was Monday.

Prohibition has been in force in Ohio county for a number of years, and at present there is no place in the county where liquor can be legally sold.

A General Strike Coming.

INDIANAPOLIS, IND., Nov. 20.—The Executive Board of the United Mine Workers has voted to order a general strike of miners in the Southwest unless railroad and coal companies consider demands made by the organization. The board wants to confer with coal operators and railroads in Missouri, Kansas and Texas and the contemplated strike affects 5,000 miners who are now idle in this district, besides others that are at work. The general strike will call out 15,000 men. It will tie up the coal shipments over railroads in the Southwest. The railroad and coal companies have ignored efforts of the Executive Board to bring about a conference and the strike will be the method the miners will use to secure the payment of union wages to all miners.

Spinal Meningitis Epidemic.

The Owensboro Messenger says there is an epidemic of spinal meningitis in the neighborhood between Worthington and the Ohio river.

The first case of this much dreaded disease appeared in that vicinity about two weeks ago, when a Miss Westaker was taken ill. She survived only about three days. A few days after her death one of her sisters was taken ill and she, too, died after a few days' illness. The next person to die was Dal Pryor, a young man about twenty years of age. His death was immediately followed by that of a Miss Cravens. The next to die was Miss Cordie Moore, a young lady of eighteen years of age, on Tuesday night, making in all five deaths in the neighborhood from spinal meningitis. Miss Moore has a sister dangerously ill of the disease.

There have been other cases of the disease in the same neighborhood, but they have been of a milder form, and the patients have recovered or are recovering.

A Long Visit.

RICHMOND, IND., November 18.—Twenty years ago Master of Mrs. Aaron Gunckel arrived in Greensfork, then Washington, Ind., on a visit to relatives, and stopped at the Gunckel home. She remained but a short time, and upon returning asked permission to have Mr. Gunckel's fourteen-year-old daughter, Maude, accompany her home on a visit. The request was granted, and the woman and her niece left for the East.

Several weeks afterwards, when Mr. Gunckel did not hear from his daughter or sister-in-law, he became alarmed and made attempts to locate them, but without avail.

SEARCH WAS ABANDONED.

He continued his search for a long period, but meeting with absolutely no success, gave his child up as dead; but could in no way account for the strange action of his sister-in-law. Yesterday a young lady of splendid appearance arrived in Greensfork. She went to the Gunckel home and made known the fact that she was the long-missing daughter. She said that her aunt had taken her to New York and placed her in the care of a family by whom she had been adopted and given the name of Martin.

Shortly after she left home the, name of the postoffice at her Indiana home was changed by the Government from Washington to Greenefork.

LETTERS WERE RETURNED.

Letters that she addressed to Washington, Ind., laboring under the impression that they would be received by her family, went to Washington, Daviess County, Indiana. Thus it chanced that none of her communications were ever received. Miss Gunckel is now 34 years of age. She has determined to remain with her father in Greensfork for the time being at least. The affair has caused a decided sensation in the little town, most of the people having known Miss Gunckel in her childhood, and they well remember the circumstances of her mysterious disappearance.

Half-Breed's Awful Revenge.

GLASGOW, KY., Nov. 17.—A terrible tragedy was enacted in this county, near Oil City, this afternoon. George Dove completely severed Albert James' head from his body with an ax.

Dove is a half-breed Indian, and married a daughter of Joe Pace, of this county. For some time past James had been boarding with Dove, and had been too attentive to Dove's wife. This morning Dove went to the spring near by for a bucket of water, and when his return is alleged to have found James with his wife. James had a pistol in his hand, however, and Dove was afraid to resent the wrong then. They all ate breakfast together, as if nothing had happened, and after breakfast both men went to their work. At dinner time Dove returned and saw his wife sitting in James' lap, putting on a pair of new shoes James had bought her. After witnessing this scene, Dove ground his ax to a sharp edge.

After the three had finished dinner James started out at the door to go to work again, and Dove followed him with the ax in his hand. There were three or four steps leading down from the door, and as James stepped to the ground Dove, who was above him, raised his ax and brought it down with terrific force across the back of his neck, cutting James' head from his body with one blow.

Dove, a short while afterward, started for town to give himself up. The news of the killing had been telephoned here, however, and a Deputy Sheriff started at once for the scene. He met Dove on the road and brought him in and placed him in jail.

Dove is a wild-looking fellow, and shows plainly the Indian blood in him.

A Mob in Ohio.

BELLEFONTAINE, O., Nov. 18.—The town of West Liberty, Logan county, last night had a mob of 150, including, it is said, some of the most prominent people, who battered down three jail doors, took out Neil Jackson, white; Ed Jackson, colored, and David Richman, colored, tarred and feathered them, and after parading them through the streets started them on the road toward Bellefontaine. They had been arrested on suspicion of having fired a barn. The woman is the wife of a negro.

Not a Surprise.

It will not be a surprise to any who are at all familiar with the good qualities of Chamberlain's Cough Remedy, to know that people everywhere take pleasure in relating their experience in the use of that splendid medicine and in telling of the benefit they have received from it, of bad colds it has cured, of threatened attacks of pneumonia it has averted and of the children it has saved from attacks of croup and whooping cough. It is a grand, good medicine. For sale by Z. Wayne Griffin & Bro., druggists, Hartford, Ky. m

Slowly Passing Away.

PATTERSON, N. J., Nov. 20.—While the doctors and watchers see no change as far as general appearance is concerned in the condition of Vice President Hobart, they can not help noticing that his strength is gradually failing. It requires more effort to remove him from the bed to the window than it did a week ago. Private Secretary Execs said to-night, however, that Mr. Hobart passed a comfort-ble day, was cheerful, and ate solid food three times daily.

Butted to Death.

BROOKVILLE, IND., November 18.—Last evening Asal Stone, aged 80, went to the pasture to gather walnuts, and while stooping was attacked by a large buck. The sheep's onslaught was so violent as to break Stone's neck. The sheep then hunted the corpse 70 yards down a hill. In consequence the body was not found until late at night.

The New York World, Thrice-a-Week Edition.

ALMOST A DAILY---AT THE PRICE OF A WEEKLY.

The most widely circulated "weekly" newspaper in America is the Thrice a Week edition of The New York World, and with the Presidential campaign now at hand, you cannot do without it. Here are some of the reasons why it is easily the leader in dollar-a-year journalism.

It is issued every other day and is to all purposes a daily.

Every week each subscriber receives 18 pages and often during the "busy" season, 24 pages each week.

The price is only $1.00 per year.

It is virtually a daily at the price of a weekly.

Its news covers every known part of the world. No weekly newspaper could stand alone and furnish such service.

The Thrice a Week World has at its disposal all of the resources of the greatest newspaper in existence—the wonder of modern journalism—"America's Greatest Newspaper," as it has been justly termed—The New York World.

It political news is absolutely impartial, while fair and honest in all matters in the Presidential campaign coming on.

The best of current fiction is found in its columns.

These are only some of the reasons—there are others. Read and see them all.

We offer this unequaled newspaper and THE HERALD together one year for $1.65.

The regular subscription price of the two papers is $2.00.

HILTON'S Proposition.

PARIS, KY., Nov. 20.—Hon. J. T. Hinton, of this city, present Representative from Bourbon, who is prominently mentioned as a candidate for Congress to succeed the late Evan E. Settle, says if he consents to make the race that he will, if elected, give every dollar of the salary for the unexpired term to Mrs. Settle, the widow of the deceased statesman.

Damages for Lost Love.

LEXINGTON, KY., Nov. 18.—Mrs. May Darnaby Muir was awarded $3,500 damages here to-day against her mother-in-law, Mrs. Mary E. Muir, for alienating her husband's affections. The husband and wife were double first cousins.

Help... Nature

Babies and children need proper food, rarely ever medicine. If they do not thrive on their food something is wrong. They need a little help to get their digestive machinery working properly.

SCOTT'S EMULSION OF COD LIVER OIL WITH HYPOPHOSPHITES OF LIME & SODA

will generally correct this difficulty.

If you will put from one-fourth to half a teaspoonful in baby's bottle three or four times a day you will soon see a marked improvement. For larger children, from half to a teaspoonful, according to age, dissolved in their milk. If you so desire, will very soon show its great nourishing power. If the mother's milk does not nourish the baby, she needs the emulsion. It will show an effect at once both upon mother and child.

HEALTH ATTAINED.

Through the New Drugless Science. Catsopathy.

Many people may be given why the ill often should immediately make a test of the curative properties of the treatment. Many are the reasons why the patient should not be guilty of the folly of sending for the services of the medical profession. Medicine has been tested and has failed signally. There is a great and an increasing disaffection with medicine as a therapeutic agency. Medicine is making advancement in the direction of remedies, but is making no progress in the cure of disease. Disease is as deadly to-day as it ever was. It is true that municipal and State hygiene has been factored and that the terrible ravages which came from filth are becoming a thing of the past, but there is little improvement in the cure of disease itself. As many people die of the common diseases ever, and where there is any improvement in the treatment of disease at all it is found in bettered dietetic and hygienic conditions and not to any better effects obtained from drugging. In the field of the chronic diseases especially, all the doctor can do is to give drugs and charge for his attendance. Indeed, so thoroughly do the people realize that the physician can do little or nothing for the chronic sufferer, that they depend upon the nostrums advertised in the public press in such glowing colors. The very success of the patent medicine business is a lasting stigma upon the medical profession, stamping it with the loss of confidence of the people.

The very fact that your physician is experimenting upon you is sufficient cause for dismissing him. And if he is honest he is forced to say that he cannot tell what will be the result of any single remedy which he may give you. Have you been treated long? Has the treatment benefitted you any? Why should you continue to pay him? There is one thing sure, we do not ask you to retain confidence in Osteopathic treatment without being benefitted by the treatment. We do not ask you to continue month after month without being benefitted and yet continue the treatment—and for good reason, that you would not do it.

In fact, the medical men are the only people on earth that can do absolutely nothing and yet retain the confidence and patronage of their patrons. But this day of universal confidence in doctors is becoming a thing of the past and the time is at hand when, like any other professional man, they shall have to give an equivalent for the money they earn.

Osteopathy deserves your patronage because it has demonstrated its ability to do all medicine can do and much more. Many are the diseases entirely beyond the reach of the medical attendant that promptly surrender to the ability and knowledge of the Osteopath. In other words, there is not a single thing that medical men can surpass Osteopaths in except it be that we do not care to equal them in malpractice of killing people, well—as it is well known, Osteopathy's reputation is due to its work in the realm of the medical incurables. Osteopathy has demonstrated in the past few years its merits in the keen judgment in several States and which will be duplicated in every other State. Not that we want to make the law a standard of merit, nor do we desire that the law should protect us as it now protects the Allopath, for we do not believe in tests, but the fact that Osteopathy is able against the influence of the tens of thousands of doctors to obtain legislation which gives it an equal show, is a demonstration of the merit existing in Osteopathy far exceeding that of medicine.

You should try Osteopathy at once, because the probabilities are that if you continue your medication you will be beyond the power of nature and her assistant in the form of Osteopathy to do you any good. Finally you should try Osteopathy because as a sensible man or woman the thing appeals to your common sense. Both the results that have been obtained in the very principle of Osteopathy commends itself to your reason. For further information, also Catalogue Journal, address

Just Foolin'.

This comes from the Bardwell News:

News reaches here that a young lady living in Graves county, Ky., who is well known in Arkansaw, and for personal reasons we withhold her name, died not long ago—for to all appearances she was dead. An undertaker was sent for, a coffin was brought, the supposed lifeless form was placed in the casket, and before the lid was closed an opportunity was given to the family and friends to take a look at their dear one. When her mother saw her daughter in the coffin she became frantic with grief and began to scream and to her great surprise she saw the fingers of her daughter move. At once everyone began working with the young lady and she soon revived sufficiently to talk, and told that she had been dead but could not move until she got a look at her mother for mother. We give this just as we heard it and do not vouch for the correctness of it.

The Country's Big Potato Crop.

According to recent estimates the immense crop of potatoes will go down on record as the largest in the history of the country. Figures based on careful reports by various publications give a production of 340,000,000 bushels, or just 214,000,000 bushels less than 1898 and 154,000,000 bushels in 1897.

The higher prices in 1898 caused the farmers to increase their potato acreage 1,000,000 acres, although the yield per acre is smaller than last year, the total result shows a tremendous increase.

While the New England crop is considerably larger than usual, the crop in the West has fallen somewhat below expectations, but in the middle West and New York State the yield will be large. The early south-run crops also show the greatest increase and while the bulk of the crop there has been marketed, it is believed but there is still a large quantity to come forward.

The market conditions during the early part of the season were favorable for good prices, but of late there has been a great reduction, prices now ranging from $1.75 to $2 per barrel, against an average of $1.75 to $3 in June, July, August and September.

Put your love to work

if he is not in school. If there is nothing else for him to do, put him to white-washing the back fence, keep the lawn cleaned and even out the winter's supply of wood. Anything is better than loafing about town in the streets of a city, learning all the evil habits and contracting all the vices that are afloat to catch fellers. No honest labor will hurt your boy, but the evil habits he may contract in the streets may wreck him and poison his moral nature so as to make him a detriment to the community in which he lives and how does he grieve honest parents with a scrap. If today and brothers of the world only learn the importance of training the sons so as to industriously and keep them off the streets, the coming generation would be inestimably better off.

Chamberlain's Pain Balm Cures Others, Why Not You?

My wife has been using Chamberlain's Pain Balm, with good results, for a number of years, and has pronounced it invaluable for nine years. We have tried all kinds of medicines and doctors without result, and have used from any of them. One day we saw an advertisement of this medicine and thought of trying it, which we did with the best of satisfaction. She has used only one bottle and her health is almost well.—ADOLPH L. A Memorial.

In the recent death of Mrs. Laura May Coffman, the community where she resided sustained a great loss. By the bereaved husband and the dear children, the kind loving mother, the true helpmeet and sweet, a vacancy is felt that can never be filled. Of a noble self-sacrificing nature, ever bright and cheerful, with a smile for every one—such was her lovely character. Truly, the ways of an all wise God are mysterious. But in taking her from her devoted little family, she goes to reap the reward He has promised to all His faithful children, and while our hearts are bowed with grief, we must at the same time exclaim, "God doeth all things well."

Elections Old Years.

[Minneapolis Tribune]

These odd-year elections are a nuisance and ought to be abolished by the States that hold them. They distract the attention of the people of the States in which they occur from legitimate business pursuit, and to some extent the people of the whole country also. They are utilized by politicians to get up false issues and are often made the basis of false conclusions. The cause that some State or locality exhibit their State ticket and electing a portion of it one year and another portion the next year, has no rational explanation. It simply puts the people to additional trouble and expense, without any compensating advantage.
